RESTORATIVE DRIVEN IMPLANT THERAPY: 
THE TEAM APPROACH
In Association with Red Rocks Oral Surgery - Dr. Todd Juhlin
Friday, November 21, 2014

Program description
Evidence-based success has resulted in increasing utilization of dental implants in the treatment of edentulism. Through patient treatment, this presentation will concentrate on a ‘TEAM Approach’ to assessment, diagnosis and planning. Consideration will be given to edentulous and partially dentate patients, with emphasis on single missing teeth and dental esthetics.

Learning objectives
- Introduce the S.A.C. patient classification System and relate it to planning and treatment procedures for patients receiving dental implants
- Detail the ‘TEAM Approach’ to planning and treatment for implant patients. Emphasis will be placed on communication through templates and photography
- Recognize the relationship between implant and esthetic dentistry
- Understand treatment principles and procedures used in treating edentulous and partially dentate patients including patients with high esthetic demand

Speaker
Dean Morton, BDS, MS

Date
Friday, November 21, 2014

Time

COMMITTED TO SIMPLY DOING MORE™ FOR DENTAL PROFESSIONALS
Dr. Morton studied dentistry at the University of Sydney, and completed an MS and Certificate in Prosthodontics at the University of Iowa. He is Professor and Chair of the Department of Oral Health and Rehabilitation at the University of Louisville, also serving as Director of the Advanced Education Program in Prosthodontics.

Dr. Morton is a Diplomate of the American Board of Prosthodontics, and a fellow of the American College of Prosthodontists, the International College of Dentists and the International Team for Implantology. He is an Associate Editor of the International Journal of Oral and Maxillofacial Implants, and serves on the Editorial Advisory Boards of Clinical Advances in Periodontics and the Open Dental Journal.

He has authored numerous peer-reviewed scientific articles, and has authored the ITI Treatment Guide, Volume 2., Loading Protocols in Implant Dentistry. He lectures both nationally and internationally on implants and esthetic dentistry, and maintains a private practice limited to Prosthodontics, Implant and Aesthetic Dentistry.
